10

Chapter 10

contains the Field Service Bulletins (FSB), these are urgent and important information (usually on single sheets), as e.g.:

- errors which may be a safety risk and the respective remedy;
- errors in the production series restricted to a certain batch or to a certain serial number(s);
- special logistic actions.

The Field Service Bulletins have consecutive numbers for easy identification.

File any Field Service Bulletin you receive in this chapter.
